

Environmental Policy

Global Laser Ltd aims to minimise the impact, both directly and indirectly, that our day to day operations may have on the natural environment.

The key points to achieving this aim are:

- Minimise waste and increase recycling.
- Promote recycling internally and with customers and suppliers.
- Reduce water and energy use.
- To foster among staff, suppliers and customers an understanding of environmental issues with the context of the business.
- We endeavour to minimise the environmental impact of our products during production, distribution, use and end of life disposal.
- To comply with relevant legislation and approved codes of practice.

Wherever possible we ensure:

- Packing material is recycled and minimised.
- Air conditioning and heating is only used when required and controlled thermostatically.
- Use electronic copy in place of hard/paper copies.
- All ink and toner cartridges are recycled.
- All lights are turned off at night.
- All screens are turned off at night.
- We recycle metals, paper and cardboard.
- All equipment power turned off when not in use.

All employees are responsible for ensuring that they play their part in working towards the objectives of this policy and are encouraged to contribute suggestions to help improve the Company's environmental performance.
